## InterfaceFLOR ReEntry™ – UK partners

### Green Works

Is a not-for-profit social enterprise providing schools, charities, community groups and start-up businesses with a range of second hand office equipment. Green Works has recently added carpet tiles to its offer. These are processed and sold at reduced rates through warehouses across the country.

### Spruce Carpet

A social enterprise, providing employment and training opportunities in a deprived area of Glasgow through the cleaning, resale and fitting of second hand carpet and carpet tile. Spruce sells InterfaceFLOR ReEntry™ tiles to local charities and start-up businesses at greatly reduced rates.

### Pennine Magpie

A charity providing vocational training activities for adults with learning disabilities through recycling activities.

mission

**Mission Zero:**  
our promise to eliminate  
any negative impact our company  
may have on the environment  
by the year 2020.

## THE SMARTER WAY TO DEAL WITH USED CARPET TILE

### *Introducing the new almost always means getting rid of the old...*

In Europe, 30 million m<sup>2</sup> of carpet tiles are landfilled or incinerated each year. The waste of valuable materials is an increasingly costly and publicly unacceptable means of dealing with products at the end of their life. There is a smarter way to deal with used carpet tile.

As a pioneer of innovative sustainable solutions, InterfaceFLOR offers the ReEntry™ service to take back product from our customers so that used carpet tiles can be diverted from landfill. InterfaceFLOR is part of Interface Inc., a global leader in the manufacture of environmentally responsible modular floorcoverings and fabrics. The company is committed to giving customers a wide range of choices for specifying sustainable products and services.

ReEntry™ provides a path to repurpose the reclaimed tiles in a way that has both social and environmental benefits. Repurposing allows a flooring product to be cleaned or refurbished in its current form, thereby extending its useful life. ReEntry™ is expanding globally across our markets as further reuse, recycling and energy recovery opportunities are identified.

ReEntry™ offers an easy opportunity for responsible management of old product which is no longer required. Stay ahead of the game, and join InterfaceFLOR in working to minimise waste and close the resources loop.

### *The ReEntry™ offer:*

For a small service cost, InterfaceFLOR will collect your used carpet tiles upon purchase of new product from InterfaceFLOR and will deliver the used tiles to one of our local partners, for either reuse, recycling or energy recovery (if appropriate), depending on local availability.

A certificate is available to you from InterfaceFLOR indicating the volume of used tile that you have passed through the ReEntry™ scheme.

To facilitate the reuse of the ReEntry™ tiles, InterfaceFLOR works in partnership with social enterprises and recycling organisations across our markets.

Details of our ReEntry™ partners are overleaf.

For further information contact your local account manager or visit [www.interfaceeurope.com](http://www.interfaceeurope.com)

- For further information contact your local account manager or visit [www.interfaceeurope.com](http://www.interfaceeurope.com)

*The current cost of the ReEntry™ service is £0.65p per sq m*

*Local conditions - Minimum collection is 100m<sup>2</sup> (50cm x 50cm tiles only). At this stage, the tiles must be replaced by InterfaceFLOR products. Only whole tiles with no sub-floor attached can be processed. The tiles should be placed on pallets (maximum height 1 metre) and shrink wrapped before collection and be in a condition suitable for reuse.*

*Note: The ReEntry™ service is gradually being expanded across Europe. Please contact your account manager or customer services for further information regarding availability in your area.*
